## Arte Inc.

In just two short years, Arte Inc. has succeeded in providing tremendous visibility to the art and culture of Latin America in New Haven. Through exhibitions at the New Haven Museum and Historical Society, 900 Chapel Street and its gallery in Fair Haven, Arte Inc. has informed the public about the important artistic, economic and political contributions Latinos have made to the New Haven region.

With the establishment of annual scholarship awards, it provides opportunities to pursue artistic education for emerging and mid-career artists. Founders Daniel Diaz and David Greco's deep belief in their mission, along with their marketing skills and willingness to take significant risks, has given our region an enormously effective arts organization whose work educates, entertains and gives exposure to the art and heritage of our significant Latino population.
